

## AAN POLICY

### WAIVERS for Youth 15+ enrolling in Adult Programming

**Figure Drawing with a live model can be an invaluable class** for those interested in drawing, as well as those developing portfolios and considering applying to art school. Working directly from the model, students gain experience working on anatomy, negotiating a dynamic subject, perspective, mark-making, hand-eye coordination and observational skills. For students aged 15-18 years old, participation in this class depends upon the maturity and experience of the individual. Students 15+ may take an adult 18+ class *if*:

- there are not similar classes offered for youth
- the class occurs between 9am-5pm when the office is open
- a signed AAN parental/guardian waiver is submitted, along with
  - a teacher recommendation
  - six pieces of student work for review
  - emergency contact information
- prior authorization from the Director of Education is obtained

If more information is needed, the Director of Education may need to speak with the student's parents.
