06/1995 - 06/1995	Joe Wood- working with steel at Haystack

Work experience

2007 - present

Tile installer / WMW, Nantucket island

I have worked consistently as a tiler, i spend my days planning measuring and installing tile in very high end properties. I find correlations to jewelry at times, there are hundreds of pieces, there is a lot of problem solving, attention to detail and precision.

05/1997 - 09/2001

goldsmith / no longer in business, Nantucket Island

after attending college i was fortunate enough to work in a goldsmiths shop with master goldsmith from europe. I did mostly the production line of miniature Nantucket baskets. Imagine a kind of locket with a handle attached with ivory knobs and inlay-ed with scrimshaw and stones.

Jewelry

I have taken several session at Haystack as well as one at Penland, all in metals. Although I am currently employed as a tiler I would like to reincorporate the jewelry world into my life, I continue learning.
